The Ultimate in Slim Home Audio Systems

SLIM CD TUNER SYSTEM WITH NXT SPEAKERS: MC-DX40DAB

This may look just like another a gorgeous design-oriented audio system, but, being a TEAC product, its performance is as striking as its appearance. Combining NXT speakers and a subwoofer, the MC-DX40DAB delivers exceptional sound quality. A new amplifier delivers 10W + 10W output power to both speakers, while the subwoofer produces 15W of stunning bass response. In short, it sets new standards in slim, stylish sound systems for the home.

Dock On!

SLIM CD TUNER SYSTEM WITH iPod DOCK AND NXT SPEAKERS: MC-DX450iDAB

TEAC's advanced CD music systems now embrace your iPod, and with the supplied iPod dock, your music and video archives get a new lease of life.

A powered subwoofer delivers 15 watts of deep bass, while the ultra-thin, smooth-sounding NXT speakers relay a further 10 watts. As a result, you hear clear and expansive sound, far removed from the sound from small earphones, and you enjoy crisp, wide imagery, normally impossible to realise from the iPod's small screen. This product, available with a DAB/FM tuner, heralds a new era in flexible home entertainment.

How NXT works

THE SECRET OF CREATING AN ULTRA THIN SPEAKER

NXT's unique technology in devising an ultra-thin speaker system can be described in two parts. One – the core feature of this technology – is called the exciter. This transforms the electronic signal from the amplifier into vibration. Another characteristic is the flat panel, which emphasizes and transfers vibrations from the exciter in to the air. The material used in the manufacture of this panel is an important factor, with a great influence on the sound quality. TEAC uses an ultra light, yet hard, material – a thin aluminium honeycomb panel covered with paper on both sides. This generates the very best sound quality available from such a neat and compact unit.

Evolution of the American Classic

CD CLOCK RADIO WITH iPod DOCK: SL-D950

The SL-D950 is TEAC's definition of the American Classic radio. However, this is no ordinary radio; despite its neo-classical design features, it's brimming with the latest in digital technology. A dock allows direct iPod connection to this high-performance compact audio unit, while a smooth, slot-loading CD mechanism allows for high-quality disc playback. There's a USB port on the front, for easy connection of portable audio players, and a built-in subwoofer combines with a VBB (Variable Bass Boost) system to deliver stunning, room-filling bass power.

Optional iPod Dock: DS-22
(iPod not included)

iPod touch not included

Organise Your Desktop in Style

SLIM SPEAKER SYSTEM WITH iPod DOCK: SP-X2i

This is arguably the most stylish speaker system for iPod. Incorporating advanced NXT speaker technology, a silky-smooth sound quality is produced from an ultra-thin speaker unit and the system includes an iPod dock and a remote control combining to give the SP-X2i versatility, yet with the minimum footprint on a desk.

Even the remote control works as a paperweight!

Digital Wallpaper

ULTRA THIN STEREO RADIO: R-X1DAB

This is no conventional slim line radio – far from it. The technology behind its ultra thin form is quite outstanding. The newly developed single panel stereo speaker technology comes from NXT, and the DAB/FM radio tuner brings you countless music and speech programmes from the sky.

Offering the Widest Choice of DAB Radio Stations

PORTABLE DAB/FM RADIO: MODEL R-3

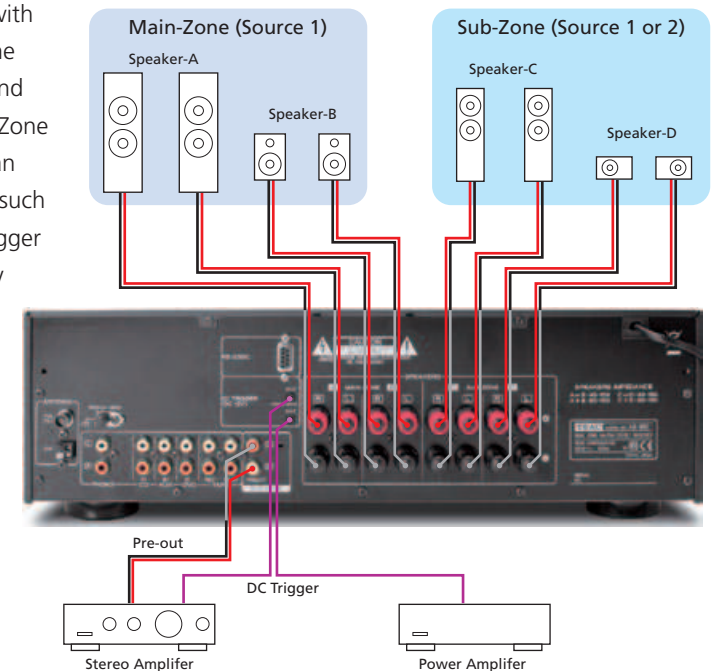

Imagine waking up every morning with countless digital quality music and speech channels available at the touch of a button. The performance and versatility of DAB Band-III and L-Band reception enables coverage of almost every digital audio broadcasting station in Europe. Every day can start with a wide and varied choice of crystalclear music and talk programmes.

Controlled Zones

DUAL ZONE STEREO RECEIVER: AG-980

It is the goal of all home theatre systems to utilise more speakers in a multi-zone at less cost. With the TEAC AG-980, you can have four pairs of speakers grouped in one Main-Zone and Sub-Zone, and each zone controlled individually; including selecting the input source, switching speakers on and off and adjusting the volume level. This means the AG-980 is great for commercial premises like pubs, restaurants or shops. For example, a Café-Bistro dining area may be designated as the Main-Zone, with a Beethoven String Quartet playing on CD with the bar/reception area acting as a Sub-Zone for cool funky-jazz from a radio station. And there's much more to the AG-980. A Sub-Zone Pre-Out delivers line-level audio signal to an additional amplifier in a separate location such as a garden, while a standard DC-12 V Trigger Out extends the flexibility of the system by allowing on/off from a remote location. Furthermore, the RS-232C provides controllability of every single command of the unit from a third-party remote control unit. In addition, as a bonus, there's an included Phono input so that audiophiles can share the experience.

The Thrill of Digital Music

DAB/FM STEREO TUNER: T-R610DAB

This product looks conventional enough from the outset but it has a host of hidden technology within it. State of the Art technology turns a standard looking radio into a complete DAB ready digital wonder.

Beauty and the Least

CD PLAYER: CD-P1260

It is generally accepted that a centre-mounted mechanism is the most efficient way to stabilise small vibrations by itself. Now this conventional CD player can playback computer generated MP3 files.

An All Round Entertainer

INTEGRATED STEREO AMPLIFIER: A-R610

Traditional quality audio, particularly in stereo amplifiers, still attracts true audiophiles, despite the changes in audio sources over the years. This classic amplifier delivers 120 watts + 120 watts power to a wide range of speakers, from 4 ohms to 16 ohms – or to compact monitor speakers on desktop. And you can use two sets of speakers if you want, main and sub speaker sets.

Musical Self Storage System

CARROUSEL TYPE 5-DISC CHANGER CD PLAYER: PD-D2620

This handy 5-disc changer with headphone volume control easily plays MP3 discs in addition to standard CDs. The great thing is that you can continuously playback as many as 750 songs, for as long as 50 hours, without having to touch the player. And this can be done whatever disc is in the unit – MP3 or CD.

Capture and Keep those Cherished Recordings

DOUBLE AUTO REVERSE CASSETTE DECK: W-865R

Don't let your cherished cassette music library collect dust in the cupboard. This outstanding double auto-reverse cassette deck revives your memories. Tape replay doesn't get much better than this!

An All Round Entertainer

STEREO AM/FM RECEIVER: AG-790

A good old-fashioned stereo receiver brimming with the very latest in audio technology. This attractive component delivers 100 watts + 100 watts power to two pairs of speakers and comes with a phono input to connect your turntable.

Retro CD Radio

Remember When Rock was Young?

RETRO STYLE CD CLOCK RADIO WITH USB: SL-D910

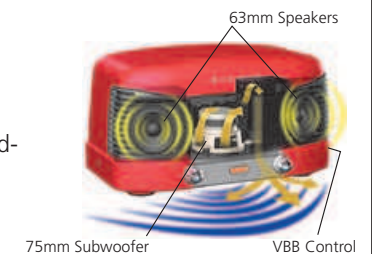

Advanced technologies incorporated in a classic cabinet. The TEAC SL-D910 defines new standards for CD clock radio, with stunning bass from the VBB Sound System.

It also has MP3 file playback capability from a USB device and MP3 disc and also works as alarm clock. Available in red, silver, black, blue, green and white with colour keyed remote control.

How the VBB Sound System Works

SECRETS OF ACHIEVING A STUNNING BASS RESPONSE FROM A SMALL CABINET

TEAC's unique bass boost system "VBB" Variable Bass Boost system improves not only the bass but also the mid-high range. Thanks to meticulously designed speaker boxes for the left and right channels, plus an additional subwoofer, you hear stunning bass and brilliant mid-high response from a small desktop audio unit. For perfect balance, bass level is adjustable by the VBB level control.

MC-DX450iDAB
Slim CD/DAB System with iPod Dock

- Plays CD, CD-R/RW, MP3 discs
- 1" NXT Exciter speakers
- Built-in iPod dock
- LCD display
- DAB (Band-III)/FM RDS tuner
- Output power: 5 W + 5 W (Speaker), 15 W (Subwoofer)
- S-Video Out
- Composite Video Out
- Audio In
- Remote control
- 3.5mm Headphone jack
- Dimension: 255 x 169 x 93mm, 1.1kg (Main unit), 210 x 169 x 78mm, 0.6kg (Speaker), 170 x 190 x 300mm 5.3kg (Subwoofer)

MC-DX40DAB
Slim CD/DAB System

- Plays CD, CD-R/RW, MP3 discs
- 1" NXT Exciter speakers
- DAB (Band-III)/FM RDS tuner
- Output power: 10 W + 10 W (Speaker), 15 W (Subwoofer)
- LCD display
- Audio In
- 3.5mm Headphone jack
- Remote control
- Dimension: 255 x 169 x 78mm, 1.1kg (Main unit), 210 x 169 x 78mm, 0.6kg (Speaker), 170 x 190 x 300mm 5.3kg (Subwoofer)

SP-X2i
Slim Speaker System with iPod Dock

- 1" NXT Exciter speakers
- Output power: 5 W + 5 W (Speaker), 15 W (Subwoofer)
- Audio In: x 2
- S-Video Out
- Composite Video Out
- Remote control
- Dimension: 193 x 156 x 65mm, 0.7kg (Speaker), 161 x 218 x 355mm, 4.8kg (Subwoofer), 100 x 100 x 39mm, 400g (iPod Dock)

SL-D950
CD Clock Radio with iPod Dock/USB

- USB Port and iPod Dock Connector
- Plays MP3 file on USB device
- Plays CD, CD-R/RW, MP3 discs
- AM/FM RDS Tuner
- 10 AM + 10 FM Station Memory
- Built-in Subwoofer
- LCD Display with Dimmer
- Output power: 15W total
- Digital Clock Dual Timer, Snooze, Sleep timer
- Audio Input
- 3.5mm Headphone Jack
- Remote Control
- Dimension: 330 x 190 x 210mm, 5.0kg
- Option: DS-22 (sold separately)

SL-D910
CD Clock Radio with USB

- Plays MP3 file on USB device
- Plays CD, CD-R/RW, MP3 discs
- AM/FM RDS Tuner
- 10 AM + 10 FM Station Memory
- Built-in Subwoofer
- Output power: 15W total
- LCD Display with Dimmer
- Digital clock, Timer-on, Snooze, Sleep timer
- Audio Input
- 3.5mm Headphone Jack
- Remote control
- Dimension: 340 x 190 x 239mm, 5.2kg

R-X1DAB
Slim Stereo DAB Radio

- Honeycomb one-panel stereo NXT speaker
- DAB (Band-III)/FM RDS Tuner
- 10 DAB + 10 FM Station Memory
- Output power: 7.5W x 2
- 1" NXT Exciter x 4
- Digital clock, Timer-on, Sleep timer
- LCD Display
- Audio Input
- 3.5mm Headphone Jack
- Remote control
- Dimension: 350 x 158 x 90mm, 1.5kg
- Wall mountable

R-1
AM/FM Mono Radio

- AM/FM Tuner
- Rotary-type Tuning Dial
- Bass, Treble Tone Control
- Output Power: 1.5W
- 3" Full-range Speaker
- Aluminium Facia
- Integrated Rechargeable Ni-MH Battery
- Audio Input
- 3.5mm Headphone Jack (stereo)
- Dimension: 236 x 127 x 132mm, 1.3kg

R-3
DAB/FM Mono Radio

- DAB (Band-III, L-band) /FM Tuner
- LCD Display
- Digital Clock, Timer-on, Sleep Timer
- Output Power: 1.5W
- 3" Full-range Speaker
- Aluminium Facia
- Integrated Rechargeable Ni-MH Battery
- Audio Input
- 3.5mm Headphone Jack (stereo)
- Dimension: 236 x 127 x 132 mm, 1.3kg

DS-22
Docking Station for iPod

- iPod Connector
- S-Video Output
- Video Output
- Dimension: 100 x 100 x 39mm, 400g

AG-980
Dual Zone Stereo Receiver

- 65W/ch Output Power (A/B/C/D)
- 35W/ch Output Power (A/B+C/D)
- 10W/ch Output Power (A+B+C+D)
- 6 Audio Inputs: Phono, CD, Tuner, Tape, AUX, DVD
- Dual zone speaker outputs and Preout
- A/B/C/D speaker selection
- 30 preset PLL synthesised AM/FM tuner
- FL display
- Audio: In x 5, Out x 2
- DC12V Trigger Out x 2
- RC-232C
- 6.3mm Gold-plated Headphone Jack
- Remote control
- Dimension: 441 x 137 x 370mm, 8.2kg

AG-790
Stereo Receiver

- 100W + 100W Output Power (8 ohms)
- 5 Audio Inputs: Phono, CD, Tuner, Tape, Video/AUX
- Tone and balance control
- A/B speaker selection
- AM/FM RDS Tuner
- 30 Station Memory
- FL Display
- Audio: In x 4, Out x 1
- Auxiliary AC Outlets (VDE x 2)
- 6.3mm Gold-plated Headphone Jack
- Remote Control
- Dimension: 435 x 139 x 335mm, 9.4kg

A-R610
Stereo Amplifier

- 90W + 90W Output Power (8 ohms)
- 120W+120W Output Power (4 ohms)
- 7 Audio Inputs: Phono, CD, Tuner, Tape, AUX, Video1, Video2
- Motor-driven Master Volume Control
- Balance and Tone Control
- Mic Mixing with Level Control
- A/B speaker Selection
- Binding-post Speaker Terminals (speaker-A)
- 6.3mm Gold-plated Mic Jack with Mic Level Control
- 6.3mm Gold-plated Headphone Jack
- Dimension: 435 x 142 x 355mm, 9.7kg

T-R610DAB
DAB/FM Stereo Tuner

- DAB (Band-III/L-Band)/FM Tuner
- 10 DAB + 10 FM Station Memory
- Sleep Timer
- RDS
- Dot-matrix FL Display with Dimmer
- Analogue Audio Output
- Coaxial Digital Audio Output
- Remote Control
- Dimension: 435 x 96 x 300mm, 3.0kg

W-865R
Double Auto Reverse Cassette Deck

- Precision Hard Permalloy Rotating Head
- Bi-directional Continuous Rec/Play (Deck I & II)
- Dolby B NR
- High/Normal Speed One-touch Dubbing
- Synchronous Reverse Dubbing
- Auto Tape-type Selector
- Pitch Control
- Intro Check
- Mic Input
- Mic/Line Mixing
- 6.3mm Gold-plated Headphone Jack
- Remote Control
- Dimension: 435 x 127 x 292mm, 4.0kg

W-600R
Double Auto Reverse Cassette Deck

- Bi-directional Continuous Play (Deck I & II)
- Bi-directional Record and Play (Deck II)
- IC Logic Control
- Dolby B NR
- 2-colour LED Left and Right-channel Peak Meters
- 3-digit Electronic Tape Counter
- High/Normal Speed Dubbing
- Full Auto-stop
- Automatic Tape-type Selector
- Remote Sensor
- Dimension: 435 x 145 x 290mm, 3.8kg

CD-P1160D
CD Player

- Plays CD, CD-R/RW Discs
- Centre-mounted Drive Mechanism
- LCD Display with Music Calendar
- Repeat, Shuffle, Program play
- Intro Check
- Coaxial Digital Audio Output
- 6.3mm Gold-plated Headphone Jack with Volume
- Remote Control
- Dimension: 435 x 80 x 280mm, 4.0kg

CD-P1260
CD Player

- Plays CD, CD-R/RW, MP3 Discs
- Centre-mounted Drive Mechanism
- LCD Display with Music Calendar
- Repeat, Shuffle, Program play
- Intro Check
- 6.3mm Gold-plated Headphone Jack with Volume
- Remote Control
- Dimension: 435 x 100 x 285mm, 4.1kg

PD-D2620
Multi-CD Player

- Plays CD, CD-R/RW, MP3 Discs
- Precision Front-loading Drawer for 5 CDs
- Sequential Playback System
- FL Display with Music Calendar
- Repeat, Shuffle, Program Play
- Intro Check
- Coaxial and Optical Digital Audio Outputs
- 6.3mm Gold-plated Headphone Jack with Volume
- Remote Control
- Dimension: 435 x 115 x 390mm, 6.2kg
