THE ROBERTS RADIO STORY

Over 80 years ago, good friends Harry Roberts and Leslie Bidmead began making portable radios from a small shop in London. Initially producing just three a week, they had a simple philosophy: never compromise on quality and keep pushing the boundaries of technology. The company has followed these values ever since, and is now the UK market leader in portable radios.

1939

When war broke out in 1939, radio production continued until the supply of valves for domestic radio production ran out.

1932

When Harry Roberts founded Roberts Radio in 1932, Leslie Bidmead sold his motorbike to pay for their small factory.

1936

Early Roberts receivers were mostly in the traditional 'suitcase' format, with loudspeaker and frame aerial in the lid.

1948

The Queen Mother and King George VI enjoy listening to their Roberts Radio wireless set.

1956

The original 'Revival' radio - the R66 - was created by Harry Roberts. It was inspired by the design of a handbag owned by his wife.

1990

A classic is reborn. Following a chance appearance in a Martini advert, which led to high demand, the red Revival is launched.

1961

In 1961, Roberts produced a one-off R200 radio with a solid gold case. Costing the equivalent of £26,000 in today's money, it appeared in newspapers all over the world.

1999

In 1999, Roberts set an industry 'first' with the launch of a portable DAB (Digital Audio Broadcasting) digital radio.

2007

Our first Smart Radio, the WM201, is launched. Allowing access to thousands of stations from around the world, it also streamed music files from your PC.

Smart Radio

2014

The iStream2 launched in 2014, and introduced Spotify Connect to our range of Smart Radios. Also launched in this year was the Stream 93i. Packed full of features, with great sound quality, the Stream 93i set a new bar for Smart Radio everywhere.

2012

In recent years, Roberts has collaborated with other brands to create a number of 'Limited Editions'. These include a series of Cath Kidston florals, a Union Jack Flag design for the London 2012 Olympics, and a Royal Gloss Burgundy Revival to celebrate the 60th anniversary of the Queen's coronation.

2016

2016 sees a new chapter for Roberts Radio. In today's connected world, streaming is how many of us enjoy our music, and R-Line is our premium audio speaker system with wireless multi-room capability.

ROYAL WARRANTS

EXCELLENCE, QUALITY, SERVICE
AND INNOVATION.

Companies holding the Royal Warrant represent the very highest standards in product excellence, quality, service and innovation within their respective industries. Companies can only reach that status through careful and efficient management.

At Roberts Radio, we're very proud to have been granted two Royal Warrants as manufacturers and suppliers of radio receivers to Her Majesty The Queen and HRH The Prince of Wales, since 1955 and 1985 respectively. This means that the Queen and her family have enjoyed Roberts Radios for over sixty years!

The granting of The Royal Warrant is reviewed every five years during which Roberts Radio must demonstrate continued supply of products to The Royal Households that meet specific manufacturing guidelines both at home and overseas.

AWARDS

AS WELL AS ACHIEVING A FULL FIVE STAR REVIEW, THE STREAM 93I SMART RADIO HAS WON THE WHAT HI-FI? PRODUCT OF THE YEAR IN THE RADIO CATEGORY IN BOTH 2014 AND 2015.

Our Travel Pad Bluetooth wireless speaker also received a 5 star review from What Hi-Fi? in 2015.

THE STREAM 93I RECEIVED SOME GREAT PRAISE FROM WHAT HIFI?

“The Stream 93i delivers stunningly crisp and clear dialogue, with nuance in spades. Voices are confident and expressive [...] Music –whether played via DAB or Wi-Fi –is delivered with dynamic subtlety, and the Stream 93i’s overall well-rounded performance proves unfussy with all music types.”

“The amount of features found on this radio puts rivals to shame. Not just a simple radio, it’s a mini-streamer/system in its own right”

“Even with newer rivals threatening its place, the Stream 93i is yet to be beaten in this category”

What Hi-Fi? Magazine Awards 2015 Edition

Revival

HERITAGE

CLASSIC. WITH A MODERN TWIST.

HERITAGE

OUR HERITAGE RANGE SHOWCASES THE RADIOS THAT HAVE DEFINED OUR BRAND THROUGHOUT OUR ESTABLISHED HISTORY.

The Revival collections combine retro 1950s aesthetics with the latest in digital technology, whilst the Rambler, Vintage, and Classic Blutune radios take their style cues from their iconic predecessors.

iStream2

DAB/DAB+/FM/INTERNET SMART RADIO WITH MEDIA STREAMING

- What Hi-Fi? 5 Star review

**YOUR MUSIC.
REDISCOVERED.
RELIVED. RELOVED.**

R-LINE

MULTI-ROOM. WITH A DIFFERENCE.

INTRODUCING R-LINE

YOUR MUSIC. REDISCOVERED.
RELIVED. RELOVED.

Your music reflects who you are.

Your first album, your first gig, your first love.

Every song tells a story, and you've been building this catalogue of memories all your life.

What if you had all of your music available at your fingertips, in every room of your home? R-Line by Roberts can bring you all this and more. Combining the best of British design and engineering with cutting edge technology to create something truly special.
