Acoustic living

Easy fit audio brought to a luxury Quebec home

Music built in

Audio hidden in every corner of the house

Eat to the beat

Dining out has never sounded this good

Hidden out of sight

Welcome to the first issue of Insider Magazine.

Whether you're an installer, architect or customer, we hope we can inspire your project with this showcase of some of the recent Monitor Audio installations from around the world.

For over 40 years, we've been creating the very best loudspeakers using our own proprietary technology and have been applying this to our Custom Install range for ultimate performance that's completely hidden out of sight.

Our curated collection of projects feature home cinemas, outdoor spaces and a littering of speakers all through the house, all discreetly placed without compromising on the quality and detail that you'd expect of Monitor Audio products.

If you'd like to know more information about the speakers and audio electronics featured in this magazine, the Custom Install Product Guide is the perfect way to get all of the details you'll need. Go to the back of the magazine for more information.

With that, we hope you enjoy taking a look at this showcase of impressive projects.

Alex Emson
Director of Global Sales & Marketing

MUSIC BUILT IN

The team at Infinite Home Theatre have recently finished work on an AV installation at luxury home 'The Long Beach' in Idaho, USA and it's packed inside and out with Monitor Audio speakers.

Audio All Around

The project included 75 Monitor Audio speakers including 22 **C180** In-Ceiling speakers throughout the living areas, kitchen, exercise room and 'Full Swing' golf simulator.

Two separate home theatres house **C265-IDC** and **C380-IDC** In-Ceiling speakers with **IWS-10** In-Wall subwoofers and **IWA-250** In-Wall amplifiers.

Outdoor and balcony decks showcase the weather resistant **CL60**, **CL60-T2** and **CL80** Climate speakers.

EAT TO THE BEAT

Embodying South Africa's love of cooking with wood fire, Marble - a restaurant situated in the art and food hub of Rosebank, Johannesburg - marries unique fare with fantastic surroundings and industry leading sound.

Thanks to Marble's partnership with AV installer Panavision SA, diners are treated to Monitor Audio sound quality as a perfect accompaniment to their meal.

Panavision installed **C180** In-Ceiling speakers throughout the restaurant for discreet interior audio.

They went on to fit the outdoor dining areas with the weather resistant **CL60** and **CL50** speakers from the Climate range.
