The new digital wireless headphones for home audio.

 SENNHEISER

WIRELESS AUDIO  
TAILORED TO  
YOUR TASTE.

## RS 165

### Get more from your TV and home audio today!

The RS 165 provides a robust, digital wireless audio transmission with minimum latency. Its ergonomic, closed, circumaural design reduces background noise while providing an exceptionally comfortable fit, so that you can focus on enjoying your favorite television programs and movies.

- Closed headphones for vibrant TV sound
- Dynamic bass boost for added power

## RS 175

### Turn your TV or HiFi into a wireless home theater.

Taking home entertainment to the next level, the RS 175 offers an impressive range of features in a compact, ergonomic package, so that you can enjoy music and television to the fullest. The bass boost and surround sound listening modes will allow you to experience your home entertainment system like never before – the former increases the audio bass response while the two virtual surround modes offer a more spatial and livelier stereo sound.

- Closed headphones for pure TV and HiFi entertainment
- Two virtual surround sound modes for a more spatial stereo sound
- Dynamic bass boost for added power
- Optical digital connection

## RS 185

### The correct wireless choice for the serious listener.

Created with the music lover in mind, the RS 185 now makes it possible to enjoy dynamic, high-fidelity Sennheiser sound at home without the hassle of wires. These innovative, ergonomically designed, wireless open headphones deliver amazingly precise sound reproduction in uncompressed digital quality even as you wander from room to room, and they are light and comfortable for extended periods of use.

- Open headphones for an audiophile listening experience
- Uncompressed Sennheiser HiFi sound without the hassle of wires
- Manual level control for precise sound reproduction
- Optical digital connection

## RS 195

### Personal audio, adaptable to your listening needs.

Whether you are watching television or listening to music, the RS 195 ensures that you won't miss a thing: Highly innovative digital wireless technology guarantees crystal clear signal transmission with low latency even while you move from room to room, and the various listening modes allow you to adapt the sound according to your individual needs and preferences. With the RS 195 you'll be able to hear the subtle nuances of dialogs and the slight details of your favorite music like never before.

- Closed headphones for personal hearing
- Selectable hearing boosts for crystal clear speech and music
- Balance control for right/left volume adjustment
- Optical digital connection
