

Ortofon Moving Coil Trade-In Scheme

The Ortofon Moving Coil Cartridge Trade-In Scheme is designed to help existing Ortofon customers update or renew their Hi-Fi system in a much more cost-effective way.

Through the scheme, Ortofon offer a trade-in value for the current range of moving coil cartridges, as well as an extensive list of discontinued models. Through this cartridge exchange program, we are able to help customers upgrade or replace their current phono cartridge in a more economical way than usual.

When looking to replace a new model from our range. you are able to apply a discount to your next moving coil cartridge purchase; moving up, down or staying the same within the range.

The savings you make are based on the cartridge you are trading in, and the exact amount for each cartridge is detailed in the chart above, in the 'Trade-In Value' columns. However, in order to benefit from the full value of your cartridge, the Trade-In Value must be less than 30% of the UK Suggested Retail Price of the new Ortofon cartridge you are purchasing. Below is a list of current UK retail prices, and the maximum trade-in discount you can apply against each cartridge. Please speak to our sales team for further details on 02476631707.
