

verto

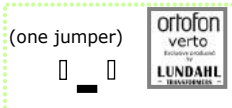

Moving Coil Transformer

Thank you for choosing the Ortofon Verto. Configuration B is the factory set configuration. For changing the configuration please follow the instruction below:

1. Remove the 6 screws
2. Remove the lid
3. Choose jumpers for gain/impedance options

Configuration A

Configuration B

Technical data

Configuration A

Recommended cartridge impedance	5-50 Ohm
Gain 1kHz	24 dB
Frequency response	10 Hz - 100 kHz \pm 1 dB

Configuration B

Recommended cartridge impedance	< 10 Ohm
Gain 1kHz	30 dB
Frequency response	10 Hz - 80 kHz \pm 1 dB

Trafo output loading	47 kOhm / 200 pF
Dimensions	75 X 125 X 170 mm
Weight	0,9 kg
Recommended load;	47 kOhm / 200 pF
