

MILTY Media Care

Pixall Mk II THE RECORD CLEANER THAT REALLY WORKS!

The Internationally acclaimed Pixall Mk II Roller has proved to be the most effective dry cleaning system yet devised for removing not just surface dust but, more importantly, damaging microdust particles embedded deep within the record grooves.

The specially formulated cleaning tape is rolled over the surface of the record to pick up debris and dust, powerfully and quickly. When the roller itself becomes dirty and loses its effectiveness, one simply peels back the tape to expose a fresh layer.

Easy fit refills are available which hold a further 1.85 metres of the special record cleaning tape.

Permostat

THE SIMPLE WAY TO ELIMINATE STATIC PERMANENTLY!

Permostat is a unique anti-static record preservative. A single application of the fluid will completely eliminate static electricity for the average life expectancy of a vinyl record.

Permostat's blend of properties not only totally eliminates static but also dramatically prolongs the life of both the record and the stylus by reducing damaging friction between stylus-tip and groove. Permostat is available in kit form, incorporating the unique double-sided Duopad. **A standard size bottle of Permostat will protect 25 records. Refills are also available.**

Zerostat 3

EFFECTIVE AT NEUTRALISING STATIC CHARGES ON VIRTUALLY ANY SURFACE WITHOUT THE NEED OF SPRAYS.

The Zerostat 3 is highly rated for its ability to improve the sound quality of records and CDs by removing static.

The Zerostat 3 incorporates a unique Piezo Crystal device which generates a positive electrical charge of Ions with one gentle squeeze of the trigger, and a negative charge on the material. Constructed from a durable hard plastic, it requires no batteries or refills and is a long lasting alternative to cleaning brushes.

Permaclean

CLEANS RECORDS, CDs AND DVDs TO PERFECTION!

Permaclean is a remarkable cleaning system that rapidly removes all contaminants from vinyl records, CDs and DVDs - from dust and grit to greasy fingerprints! Permaclean safely and quickly removes the unwanted grime that causes serious background noise. Your records and discs are restored to virtual mint condition after the Permaclean treatment. When used in conjunction with Permostat it proves a most effective record/disc restorative.

The Permaclean Kit includes the unique double sided **Duopad** and will treat approximately 40 records. **Refills are also available.**

Duopad (replacement) - 10 per box

LC2 **NEW** CD/DVD Laser Lens Cleaner

A UNIQUE WET/DRY CLEANING SYSTEM. VOICE INSTRUCTIONS ON DISC

Suitable for use with:
COMPACT DISC, DVD
CD-ROM, CD-I, LASER DISC,
PHOTO CD

Sound Isolation

FoculPods (4pk)

FoculPods are high performance vibration absorbing supports designed to be placed under CD Players, Turntables, Amplifiers, Loudspeakers and all other Audio, Video & Computer equipment.

Each Foculpod is accurately replicated from a precisely machined and polished master in order to provide equal support both dimensional and volumetrically.

Polipods (8pk)

Polipods are high performance vibration absorbing supports designed to be placed under CD Players, Turntables, Amplifiers, Loudspeakers and all other Audio, Video & Computer equipment.

Each Polipod is accurately replicated from a precisely machined and polished master in order to provide equal support both dimensional and volumetrically.

Specifications (FoculPods/Polipods)

Material **Advanced polymer**

Foculpod Overall Size **50mm x 20mm**

4 FoculPods will support 10 kilos

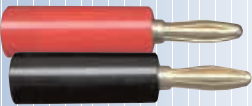

Polipod Overall Size **40mm x 16mm**

4 Polipods will support 5 kilos

MILTY Precision Audio Connectors

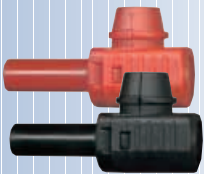

- CC112 - 40 PACK**
- Metal Bodied High Quality Phono Plug
 - 24K Gold Plated Pin Section and Shroud.
 - Solder Termination
 - 7mm dia. Cable Entry

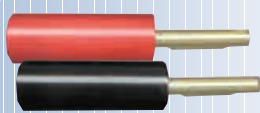

- CC119 - 40 PACK**
CC120 - 100 PACK
- High Quality 4mm Banana Plug
 - 24K Gold Plated
 - Double Screw Termination
 - 4mm dia. Conductor Entry- 8.5mm dia. Cable Entry

- CC121 - 1 PACK**
- 5 Pin Din To 2 RCA Plug Adaptor
 - (180° Din-pins 3+5 connected)

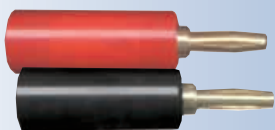

- CC122 - 50 PACK**
CC123 - 100 PACK
- High Quality BFA Plug
 - 24K Gold Plated
 - Screw Termination
 - 4mm dia. Conductor Entry- 5mm dia. Cable Entry

- CC124 - 50 PACK**
- High Quality Adaptor
 - 24K Gold Plated
 - Double Screw Termination
 - 5mm dia. Conductor Entry - 8.5mm dia. Cable Entry

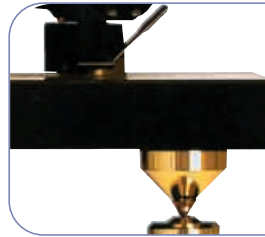

- CC126 - 40 PACK**
CC127 - 100 PACK
